I hope this email finds you well.

I am writing regarding the development of your professional website. We can build a clean, responsive platform tailored to your legal practice to showcase your expertise and streamline client consultations.

Key Features:
Portfolio Showcase: Dedicated sections for your biography, core practice areas, credentials, and achievements.

Appointment Booking: A simple scheduling system for clients to book consultations, complete with automated calendar reminders.

Mobile-Optimized & SEO-Ready: Fast, professional design configured to help prospective clients find your practice easily.

Looking forward to connecting.

Best regards,
Mukil Barath

Dear Mukil,

Thank you for reaching out and for your interest in building a website for my legal practice.

A clean, responsive online presence with an integrated consultation booking system is certainly something I am considering to better serve prospective clients.

Before moving forward, I would like to get a bit more detail on a few key points:

> **Portfolio & Case Studies:** Could you share examples of previous websites you have designed, particularly for legal professionals or professional service firms?
>
> **Pricing & Deliverables:** What are your standard package rates, timelines, and ongoing maintenance fees?
>
> **Compliance & Privacy:** Given the nature of legal practice, client data security and compliance with Bar Council guidelines are critical. How do you handle data privacy and booking security?

Please send over a brief proposal or deck covering these details, and we can schedule a quick call to discuss further.

Best regards,

Kannan B
